Gauri Agrawal

Frisco, TX | gauriagrawal@tamu.edu | (469) 213-9662

Profile

Hello! My name is Gauri Agrawal and I'm currently in my third year undergrad at Texas A&M. I'm a computer science student with minors in both math and game design with over 7 years of coding experience.

Education

Texas A&M University, BS in Computer Science — Aug 2023 – May 2027

- **Minors:** Math, Game Design and Development
- GPA: 3.730/4.0
- Lechner Scholar Recipient
- Engineering Honors

Experience

LIVE Lab, Texas A&M University - College Station, TX — August 2024 - Present

- Contributed to multiple projects leveraging VR and AI technologies to improve healthcare and education outcomes.
- Developed an AI assistant using Retrieval-Augmented Generation (RAG) to provide medically accurate rehabilitation guidance with reduced risk of hallucination.
- Integrated Inertial Measurement Units (IMUs) and motion-capture technology to enable precise tracking of patient movements in a VR-based stroke rehabilitation environment.
- Authored key sections of an Institutional Review Board (IRB) proposal and prepared budget proposals to support funding and deployment of a VR math esports project targeting bilingual, rural, and first-generation students.

AGGIES Lab, Texas A&M University - College Station, TX — December 2024 - Present

- Published and presented research on the *Impact of AI in Social Media: Addressing Cyber Crimes and Gender Dynamics* at the **European Conference on Social Media (ECSM 2025).**
- Led the human-subjects research component, guiding team members through the Institutional Review Board (IRB) process to ensure compliance with ethical standards.

Discrete Structures for Computing Teaching Assistant, Texas A&M University — August 2025 - Present

- Support instruction in discrete mathematics and computer science fundamentals, including logic, set theory, relations, functions, and proof techniques.
- Assist in grading assignments and exams, ensuring consistency and clarity of feedback for over 300 students.

Activities

Student Research Week — March 17-21, 2025

– Received Second Place in Computational & Data Sciences Oral Presentations

Society of Women in Engineering — August 2023 - Present

Aggie Coding Club — August 2023 - Present

HowdyHack Hackathon — October 2024

Skills & Technologies

Languages: Java, C++, C#, Python, HTML, CSS, JavaScript, Haskell, X-86 Assembly

Technologies: VS Code, AWS, Unreal Engine
